The **objective** of this session is to help child care providers strengthen their supervision skills. We will:

- Review the six active supervision strategies that help keep children safe
- Troubleshoot common supervision challenges
- Discuss the “Where’s Baby? Look Before You Lock.” campaign which includes identifying the dangers of leaving children alone in vehicles, along with what to do if you suspect that a child may be experiencing heatstroke

Come enjoy networking time with other child care providers who understand that working with young children each day can be rewarding and challenging. We will discuss resources available to area child care providers and you will be given the chance to share your ideas. We look forward to you joining us for this exciting opportunity!
